GENESIS ZOOLOGICAL CENTER INC

PO BOX 1523

Type: ROUTINE INSPECTION

POLK CITY, FL 33868

Date: 28 August 2013

### 3.131

#### SANITATION.

(c) Housekeeping. Premises (buildings and grounds) shall be kept clean and in good repair in order to protect the animals from injury and to facilitate the prescribed husbandry practices set forth in this subpart. Accumulations of trash shall be placed in designated areas and cleared as necessary to protect the health of the animals.

The barrier fences, grounds, and in the wolf, tiger and cougar enclosures, there are excessive weeds and overgrowth. These areas all need to be addressed to protect the animals from injury and to facilitate the prescribed husbandry practices. Excessive weeds can provide hiding areas for vermin and snakes. The barrier fence is being bent from the weight of the vines so these shall be removed to protect the structural integrity.

Correct by: 09-18-13.

An exit briefing was conducted with the President.
